**Subject:** RE: Finance Committee Member/Public Record Request

No one else requested it. The only person with access to it is one payroll person. This info is on database that was used to generate employee compensation package letters. In October 2007, the board members received a copy of it. Later, Kevin Clarke requested he have a copy. This year there were no hard copies generated.

**Subject:** RE: Finance Committee Member/Public Record Request

Has anyone else in the past year made a similar request for the same items?  
And who in the district would have this information available to them?

Karen

**Subject:** Finance Committee Member/Public Record Request

FYI! Attached is a public record request received this morning from a finance committee member. Please note that last year this gentlemen requested this information and it know resides on the stow idiocracy.com website. As I have stated before, it is my opinion that this finance committee does not have our District's best interest in mind, and I encourage you to re-visit the function of this group and whether or not you desire for this to continue as an 'arm of the Board.'

Catherine M. Bulgrin  
Treasurer/CFO
