

[Catherine Bulgrin] I know this is choppy and you had a flow going...but those are my comments. Let me know what you think.

Subject: RE: Finance Committee Member/Public Record Request

OK. Thanks for checking. I certainly can see your point with the District's best interests; however, I think that at this point we're dealing with one rogue member who isn't acting in his capacity as a committee member and I don't think that the entire committee should suffer because of his actions. There are a number of committed dedicated community members on that committee and I feel the public would not be pleased if it were discontinued, particularly since it was formed during the last levy crisis.

Subject: RE: Finance Committee Member/Public Record Request

No one else requested it. The only person with access to it is one payroll person. This info is on database that was used to generate employee compensation package letters. In October 2007, the board members received a copy of it. Later, Kevin Clarke requested he have a copy. This year there were no hard copies generated.
